

## SOLUTION BRIEF

# How AllRize Helps Lawyers Manage Their Workload

AllRize: The Complete AI-Powered Law Practice Management Platform With Everything in One Place.

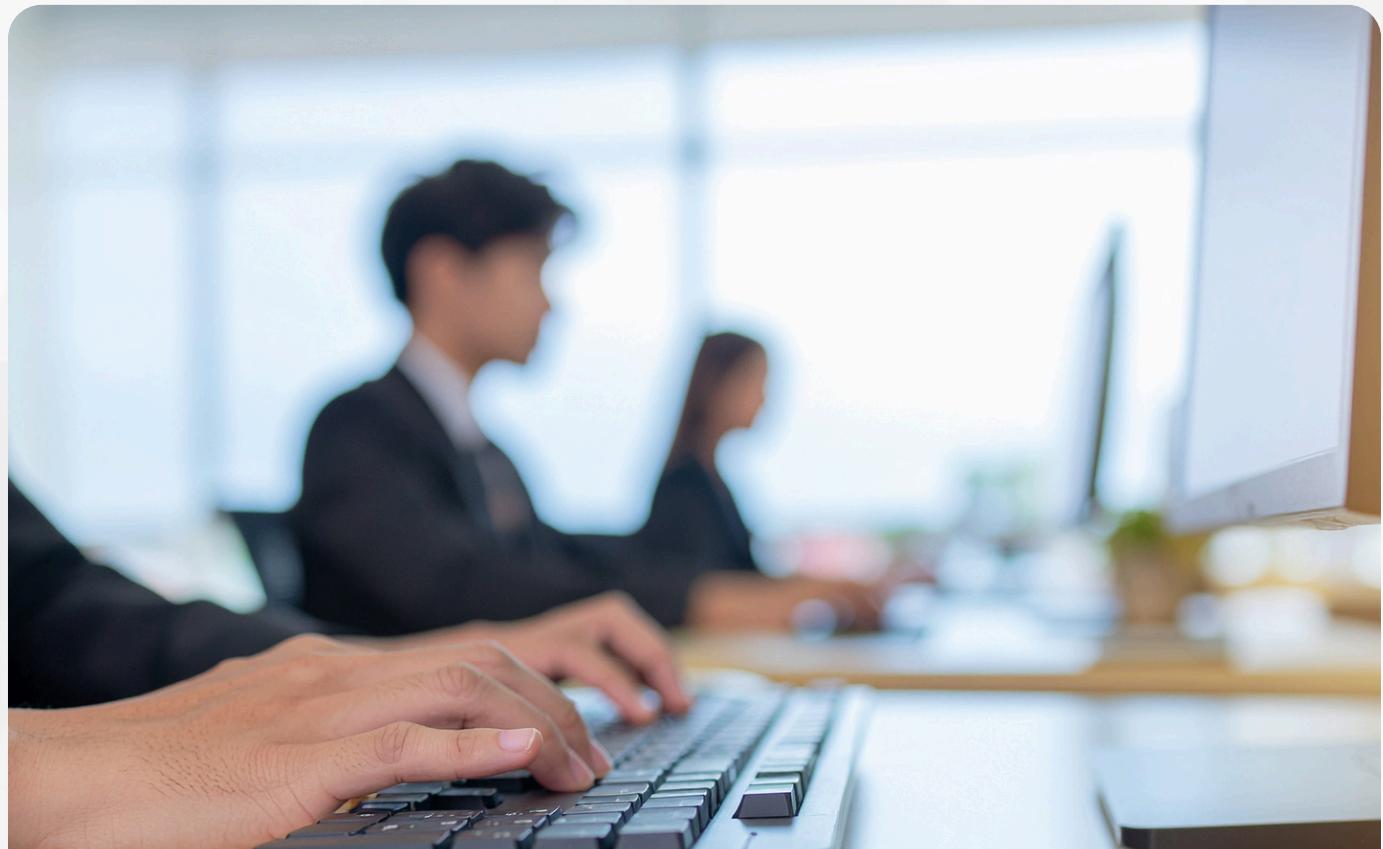

## PROBLEM

For many attorneys, the biggest challenge isn't the law itself, it's everything surrounding it. Managing cases, tracking deadlines, coordinating communication, organizing documents, and handling administrative tasks often consumes more hours than actual legal work. The result is constant stress, inefficiency, missed revenue opportunities, and the feeling of always being behind. Chaos has become the norm, and it's burning out even the best lawyers.

## SOLUTION

AllRize's AI-powered practice management system, built on Microsoft Dynamics, transforms the way attorneys work by bringing order, automation, and intelligence into every part of the workflow. Instead of manually tracking tasks, searching for documents, or triaging client communications, attorneys have a centralized platform that anticipates needs, automates repetitive tasks, organizes information, and keeps every case moving forward. With AI-driven insights, predictive deadlines, smart document handling, and streamlined communication tools, lawyers can finally focus on high-value legal strategy instead of administrative noise.

## Attorney Workload Before AllRize

- Constantly jumping between disconnected tools
- Struggling to track deadlines and tasks
- Hours lost searching for documents
- Administrative work consuming more time than actual legal analysis
- Client communication piling up
- High levels of stress, burnout, and reactive decision-making

## Attorney Workload With AllRize

- A single, centralized platform organizing all cases, tasks, and documents
- AI automatically tracking deadlines, predicting next steps, and assigning follow-ups
- Documents instantly organized and searchable
- Administrative tasks automated
- Clear visibility into workload, capacity, and upcoming case milestones
- Reduced stress, improved productivity, and more consistent work quality
